**Crystal Ra Laksmi** has lived abroad most of her adult life. She has lived in Norway, Denmark, South Africa, Australia, Hawaii and Mexico and travelled to more than +26 countries. She has two higher university degrees from Norway and South Africa. She has done 2 documentaries. She has worked with groups and individuals for the last 16 years. Her real talent is to lead groups to more consciousness and through that transform as much this group is ready to receive. This time will be very exciting because of the water work she is going to introduce in detail as well transfer all the powerful crystal and golden energies from West Mexico, where she has been for the last 2

years.

### **What characterizes Crystal's retreats?**

There is a lot of unexpected unknown in it. As she follows the energies and what the spirit is dictating, then the program weaves itself together accordingly. She has got all the best tools now also how to deal with the shadows in a group or individuals and her 4 V system is a good example how to put it into practice.

All the people who have participated in her retreats, whether in Tallinn, Saaremaa or Hawaii or Mexico, Norway, have experienced huge consciousness

expansion, the beginning of the new life, new choices and moving forward the way which was not possible before. This has happened because Crystal created an environment, where everyone felt inspiration to change and made also steps to create that.

Some examples of the results after the retreats – who gets a new partner, who gets a new job, who leaves the old life, who registers the new company, who creates more opportunities to receive more abundance, who lets go of the fear to swim and turns into a mermaid and so much more.
